

Where exploration meets experience

Justin Hopkins - Intern class of 2019

"My manager has done a fantastic job of giving me meaningful projects, and I can see the benefit and value in them."

Yohana Gebremichael - Intern class of 2019

"I have connected with so many professionals from so many diverse backgrounds and expanded my network."

The Summer @ Roche Intern Program provides opportunities to pursue your interests across functions by applying skills and knowledge you've gained in school.

Our 10-week summer internships are available in several functions across the company.

Whether your career interest is in sales, marketing, supply chain, science, project management or HR, the Summer @ Roche internship program will help you transform from college students to emerging industry professionals.

Apply today at go.roche.com/rocheinterns.

Roche is an equal opportunity employer.

A global healthcare leader

Roche Diagnostics is part of one of the world's leading research-oriented healthcare organizations—the Roche Group (headquartered in Basel, Switzerland). With combined strengths in pharmaceuticals and diagnostics, Roche develops innovative products and services that address the prevention, diagnosis and treatment of diseases, such as cancer, HIV, heart disease, diabetes, hepatitis and HPV.

Roche Indy is the North American headquarters of the world's largest biotech company, where more than 4,000 people work together to provide insights that help people around the world manage and improve personal health conditions. We lead the industry in the development of diagnostics products for cancer, cardiac health, infectious diseases, women's health and in diabetes management.

Diagnostics informs 70 percent of clinical decisions, including the prevention, identification and treatment of diseases, and are a critical part of modern medicine as care becomes more personalized.
